MISSION CARD

KOBULETI / HOT START / FOUR CLIENT POSITIONS

> REARM FIRST. START THE EXERCISE AIRBORNE.
> Air contacts spawn immediately.

01 PREPARE Check fuel, stores, CM and SN-29/DTC.

02 DEPART Complete aircraft checks, obtain clearance.

03 ACTIVATE F10 > MiG-29A TRAINING CAMPAIGN > CAMPAIGN MISSIONS.

04 RECOVER Return, rearm and review the training record.

R-862 PRESETS / ALL FREQUENCIES AM

Cockpit CH	Station	MHz
0 / 1	Kobuleti	133.000
2	Batumi	131.000
3	Kutaisi	134.000
4	Senaki	132.000
5	Flight	124.000

Verify actual cockpit/DTC tuning before ATC calls. No tanker is available. Dynamic targets are not uploaded automatically to the navigator.

PHASE 1 / AIR DEFENCE

EXERCISES 01-04 / FOX 1 + FOX 2 ONLY

01 VISUAL FIGHTER ENGAGEMENT

MiG-21bis | 35 NM | 12,000 ft / 3,658 m

R-60M-only opponents hold fire through the first neutral merge. The trainee also waits until the first pass. Practise visual acquisition, IRST/HMS, R-73 and cannon.

02 AIR DEFENCE INTERCEPT

MiG-21bis | 42 NM | 18,000 ft / 5,486 m

Practise N019 search and acquisition, radar/IRST correlation and positive identification. Reference trainee weapons are R-27R and R-73. No dedicated campaign GCI is added.

03 BVR INTERCEPT

MiG-23MLD | 48 NM | 22,000 ft / 6,706 m

Opponents carry R-24R/R-24T/R-60M. Practise R-27R employment and maintain the required radar support. Manage any transition to close combat and R-73.

04 HIGH-ALTITUDE INTERCEPT

MiG-25PD / MiG-21bis | 55 NM | 30,000 ft / 9,144 m

Practise radar elevation control, geometry, energy and endurance. A solo pilot faces one MiG-25PD. Additional pilots add contacts from the original alternating mix.

Ranges and altitudes above are initial contact spawn conditions. Opposition: one fighter per active BLUE pilot, maximum four.

PHASE 2 / GROUND ATTACK

EXERCISES 05-07 / UNGUIDED WEAPONS

05 LOGISTICS CONVOY STRIKE

7 vehicles | Random designated ground range

Attack the logistics group using module-compatible FAB/OFAB bombs or S-8 rockets. Obtain observer coordinates and acquire targets visually. This exercise does not provide laser-guided weapons.

06 ARMOURED INTERDICTION

7 vehicles | Armour / mechanised force with ZSU-23-4

Prepare an appropriate unguided loadout before departure. Assess the anti-aircraft threat and limit target-area exposure. SPO-15LM is an awareness aid; combine it with visual search.

07 SHORT-RANGE AIR DEFENCE ATTACK

6 vehicles | Strela-10M3 + ZSU-23-4

Conduct a conventional attack on the SHORAD position. No anti-radiation missile is provided. Account for IR threats, countermeasures and disengagement before committing to another pass.

> OBSERVER, NOT LASER GUIDANCE
> F10 supplies target coordinates. The retained 1688 laser is an external reference; the Fulcrum cannot track that spot or use it to guide these weapons.

PHASE 3 / EVALUATION

EXERCISES 08-09 / MIXED OBJECTIVES

08 COMBINED ARMS EXERCISE

MiG-23MLD: 50 NM / 20,000 ft (6,096 m) | 7 ground targets

A mechanised force with AAA is covered by fighters. Prepare a compatible mixed loadout, such as R-73 and FAB/OFAB bombs. In multiplayer, agree task priorities and roles before activation.

09 FINAL OPERATIONAL EVALUATION

Fighters: 58 NM / 24,000 ft (7,315 m) | 9 ground targets

Complete both air and ground objectives. One active pilot spawns MiG-21bis; the next three add MiG-23MLD, MiG-25PD and MiG-29A in that order. Ground strength remains fixed.

SORTIE PLANNING

- Agree the mixed loadout and flight roles before activation.
- Monitor fuel, stores and the remaining ground threat.
- Recover and rearm as needed; complete residual targets, then return to Kobuleti.

> COMPLETION
> Every assigned air and ground objective must be destroyed. An incomplete spawn suspends credit: restart the selected exercise.

AIR COMBAT REFERENCE

TASK REMINDERS / CONSULT THE MODULE MANUAL FOR SWITCHING

N019 RADAR

Select suitable search/acquisition modes. Check elevation and target association; identify before firing.

IRST + HMS

Use IRST/HMS for close-combat acquisition and R-73 cueing. Confirm seeker acquisition before release.

R-27R / FOX 1

Semi-active radar homing. Maintain the required radar support; this is not a fire-and-forget weapon.

R-73 / FOX 2

Confirm the intended target and seeker acquisition. In Exercise 01, wait until the first neutral pass.

GSh-30-1

30 mm cannon. Use controlled employment; observe module limitations and monitor remaining ammunition.

SPO-15LM

Use the RWR for awareness. No warning does not mean no threat: IR weapons may give no radar warning.

No FOX 3 and no R-27ER/ET in this programme. Rearming choices are not script-locked; comply with the exercise rules.

LOADOUT & NAVIGATION

FULL FIDELITY NATIVE STORES / R-862 + SN-29

INITIAL AIR-TO-AIR CONFIGURATION

ME slot	1	2	3	4	5	6	7
Store	-	R-73	R-27R	Tank	R-27R	R-73	-

2 R-27R + 2 R-73 + centreline tank.
3376 kg internal fuel; 30 chaff and 30 flare; GSh-30-1. Slot numbers above are Mission Editor indices.

REARM FOR THE TASK

VISUAL / 01
R-73-only rearming supports a comparable visual exercise. Wait until the first neutral merge.

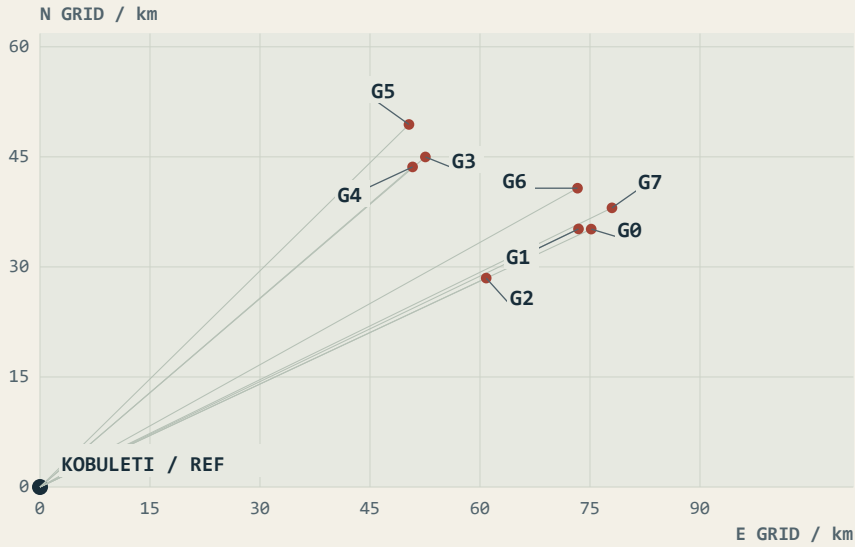

GROUND / 05-07
Select compatible FAB/OFAB bombs or S-8 rockets. Follow module rearming and delivery procedures.

COMBINED / 08-09
Retain air-to-air capability with unguided ground stores. Recover and rearm if required.

> NAVIGATION CHECK
> Verify SN-29/DTC data and the recovery airfield. Dynamic targets are not uploaded: use live F10 coordinates.

TRAINING RANGE INDEX

SCHEMATIC / LOCAL DCS GRID / NOT A TERRAIN CHART

Alias	Editor zone	Range from ref
G0	GROUND (no suffix)	83.0 km / 44.8 NM
G1	GROUND -1	81.4 km / 44.0 NM
G2	GROUND -2	67.2 km / 36.3 NM
G3	GROUND -3	69.2 km / 37.4 NM
G4	GROUND -4	67.0 km / 36.2 NM
G5	GROUND -5	70.5 km / 38.1 NM
G6	GROUND -6	83.9 km / 45.3 NM
G7	GROUND -7	86.8 km / 46.9 NM

G0-G7 are aliases for SPAWN ZONE GROUND and suffixes. Radius: 457.2 m. Distances from Client 01, not routes. Use live F10 MGRS for actual units.

F10 & TRAINING RECORD

MENU GUIDE / COMPLETION / PROGRESS

F10 > MiG-29A TRAINING CAMPAIGN

CAMPAIGN MISSIONS	Choose an exercise or START NEXT IN SEQUENCE.
FREE TRAINING - AIR / GROUND	Random/by-type contacts or ground groups.
GROUND OBSERVER	Coordinates (no laser guidance); select next target.
ACTIVE MISSION BRIEF	Repeat tasking and remaining objectives.
CAMPAIGN STATUS / MY TRAINING RECORD	View progress, score and persistence.
RESET TRAINING RANGE	Remove the active exercise.

SCORING Air kill +25 | Ground kill +10
First completion of each exercise +100.

SESSION ONLY: progress ends when the mission closes.
DISK SAVE ACTIVE: saved between sessions when host io/lfs is already available.

F10 menus are group-shared. Queries/START NEXT use the first active player; records store player names.

Reference: official module manual and local DCS data. Campaign aid, not a cockpit checklist or qualification syllabus.
